Summary: **LATE FILED.** On October 31, 2005, Jeff Compton, Vice President - Regulatory and Industry Relations for Telscape Communications, Inc. (Telscape) met with Cmmr. Grueneich in San Francisco. Also present were Kelly Hymes, advisor to Cmmr. Grueneich, and John Clark of Goodin, MacBride, Squeri, Ritchie & Day, LLP, representing Telscape. Confidential written materials were used. Redacted version of the materials is attached to the notice and the unredacted version is submitted as an attachment to Telscape's motion for protective order, filed concurrently with the notice. Compton and Clark addressed Telscape's proposal that the Commission require a fifty percent reduction in the price for unbundled two-wire residential unbundled loops as a condition to approving the merger between AT&T and SBC. Compton and Clark observed that with the elimination of UNE-P, the ability of competitive local exchange carriers (CLECs) to compete in the residential market for basic telephone service will require them to transition to a UNE-L strategy; however, at current loop prices, the cost structure does not permit the CLEC to attract the capital it needs in order to install collocation facilities. Telscape's representatives acknowledged that VOIP will eventually replace plain old telephone service, but that affordable access to necessary broadband service is still a number of years away for many customers.
